Governor Scott Walker,

I think that allowing the Lac Du Flambeau Tribe to build Casino in Shullsburg, would be an asset to the City of Shullsburg. The City of Shullsburg is a community of 1200 with the main jobs being Truck County, the Shullsburg Creamy, White Hill Cheese and the School Distinct. In Lafayette County the biggest employer is the County itself. Lac Du Flambeau Tribe is talking about employing 3 times the amount that the County employs at this time. By allowing this Casino to be built by the Lac Du Flambeau Tribe will increase the jobs in the City of Shullsburg. With increase of jobs in Shullsburg, people will move into vacant homes, and build new homes, which will increase revenue for the City, County and State.

In past meetings with the Lac Du Flambeau Tribe, we were told with the building of the Casino will come an increase of people moving into the area and this may or may not increase the crime rate. The safety of the citizens of Shullsburg is my main concern for the police department. I feel that this is something that the police department can adjust to, to provide the same services that are being provided today if not more coverage. At this time the police department is not a 24 hour police department. The police department would increase officers, and would go to a 24 hour police department which will increase the coverage and protection. Along with the police department, the City of Shullsburg has an Ambulance service and fire department in the city.

As the Chief of Police I would like to endorse this project and the building of the Lac Du Flambeau Tribe Casino in the City of Shullsburg. This will boost the jobs in the City of Shullsburg, County of Lafayette and State of Wisconsin. Thank you for your time.

Sincerely,

Richard P. Moyer
Chief of Police
