

Shullsburg FIRE DEPARTMENT

Shullsburg, WI 53586

To Whom this may concern,

Department of Administration

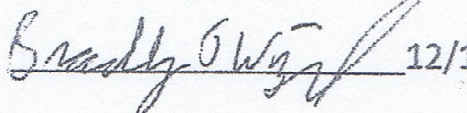

Governor Scott Walker

On behalf of the Shullsburg Fire Department and Shullsburg Fire District we would like to express our support for the proposed Indian Casino in our district. The largest reason is it will produce jobs for our area which will stimulate our economy and will intern bring more people to our community. In the last few years I have noticed a decrease in individuals in the volunteer fire departments and rescue squads due to limited number of residence and I believe adding more jobs in our area will benefit this. This will not only benefit Shullsburg but also the surrounding communities. We believe there will be no issues in our area as to the handling of any large scale emergencies, and we have a good response from all of our local communities when needed. Mabas Wisconsin has been in the works with our county for almost a year and we are training and working with all individuals in the emergency fields to be prepared for a large scale emergency.

Thank You

Bradley Wiegel

Shullsburg Fire Chief
